### Relevant Experience

Sarah Watt trained as an archaeologist and has 20 years' experience in the heritage sector. She joined Asset Heritage Consulting from CgMs where she worked from 2002 onwards in their Heritage team. Prior to this Sarah coordinated the production of the West Midlands Regional Research Framework for Archaeology and edited the resulting published volume. Sarah has particular experience of carrying out assessments of significance and impact assessment for individual buildings and larger sites as part of the planning process; of preparing Conservation Area Character Appraisals; and of contributing to master-planning exercises for large-scale developments. She has also given evidence at public inquiry.

### Project Examples

**St Matthias Campus, University of the West of England** – Site-wide Conservation Audit identifying significance of buildings and spaces as part of disposal process.

**31 Brompton Square, London** – Statement of Significance and assessment of impact of proposed works, including new sub-basement, to large Grade II listed house.
